## Online Checkbook <sup>SM</sup>

### Log In

If you have not already logged into your InterChecks Online Checkbook, you may do so here. If you have forgotten your ID or Password, please contact your financial institution at (XXX)XXX-XXXX.

### Activate Checkbook

Activating your checkbook will allow you to authorize an online purchase and give you access to your "Temporary Shopping ID." Your Temporary Shopping ID is a unique, one-time use "credit card" number that is temporarily attached to your deposit account. It can only be used to purchase items with a dollar value that is less than or equal to the amount you authorize. Once your transaction is complete or the Online Checkbook has been closed, that Temporary Number is no longer valid and is immediately detached from your account.

### Transaction History

You can access your transaction history at any time to see where you have used your InterChecks account and how much you spent. You can also check the status of any returned items.

### Privacy Options

Privacy Options allow you to purchase and receive items without exposing your personal identity to the merchant. By setting up Privacy Codes for each of the destinations you wish to receive or send items to, you can prevent merchants from detecting your true identity and remain totally anonymous (this applies to online subscriptions as well).

### Shopping Search

The Shopping Search allows you to search for items online using up to 4 major search engines at the same time. This will help cut down the time it takes you to find the items you're looking for. You will find this a useful tool even when you're not shopping online.

### Returns

Returns are often difficult to accommodate online. Using the return feature allows InterChecks to quickly identify return transactions from online merchants and credit your account accordingly.

### Logoff

Logoff immediately closes your InteChecks Shopping Tool Bar and your Online Checkbook.
